Logistics City Basingstoke

Kier Property in joint venture with Investec completed the development of Logistics City Basingstoke in April 2019. The scheme consisted of 109,235 sqft across three industrial units on a five-acre site.

Basingstoke is a dominant south east industrial centre benefiting from exceptional transport links via road, rail and air. Situated within one of the town's most recognised industrial/warehouse areas, close to (J6) M3.

A former office and distribution warehouse Kier Property let Unit A to Network Rail and Unit B to Oxoid Limited, who trade as Thermofisher. Both units were then sold to a private US Fund.

Tri-Link 140, Normanton

Kier's scheme provided an excellent industrial and warehouse opportunity, comprised of 142,338 sq ft facility incorporating 136,231 sq ft warehouse and 6,107 sq ft of office space.

Located in Wakefield, Europort is an established location at J31 of the M62. Tri-Link 140 is regarded as a flagship industrial and warehouse development that offered high quality buildings in a highly accessible and strategic motorway location.

The location benefited from the European rail freight access through the Europort freight terminal and has ready access to the deep water ports of Goole and Hull and five international airports within a one hour's drive.
